7581

7581 Vintage Fermented Puer Tea

為普洱熟茶的標準化始祖，於1975年確立了配方。早期普洱茶皆為生茶，直至大躍進的時代所有東西講求效率，就連普洱茶也不例外。因此由昆明茶廠的吳啟英教授與其團隊研發出人工渥堆發酵的方式製作熟普洱茶。茶湯風味帶有棗香，尾韻甘甜滑順，是非常具有代表性的茶磚之一。

As the pioneer of standardized Fermented Puer tea, it established the formula in 1975. In the early days, all Puer teas were raw teas. Until the era of the Great Leap Forward, everything emphasized efficiency, including Puer tea. Therefore, Professor Wu Qiying and her team from Kunming Tea Factory, assigned by China Tea Corporation, developed a method of artificially pile-fermenting to produce fermented Puer tea.

The flavor of the tea carries a date aroma, with the sweet and smooth aftertaste, making it one of the most representative tea bricks.
